Remarkable wood floors  
for remarkable interiors

strength

Imagine this collection reclaimed from mighty **Vulcan**'s workshop! Underfoot the worn distressed look is full of character and so sought after today for projects with the industrial look.

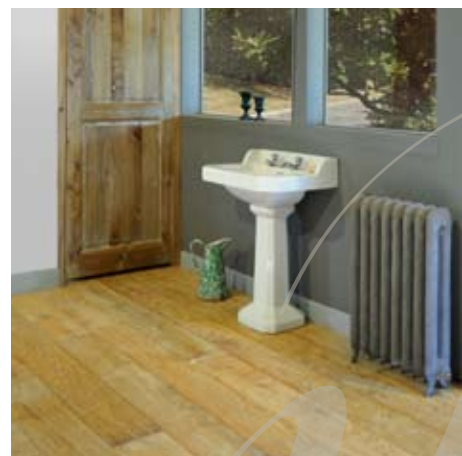

The careful hand-made surface wear and imperfections give **Vulcan**'s collection warmth and power to your interiors.

**Etna**

**Sulfur**

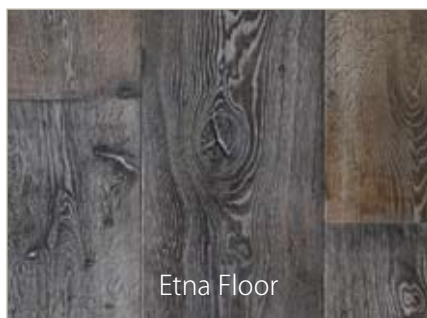

**Santorini**

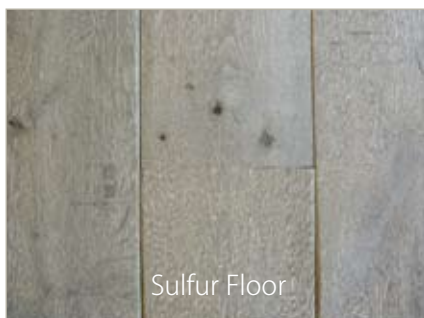

with temperament

# vulcan range

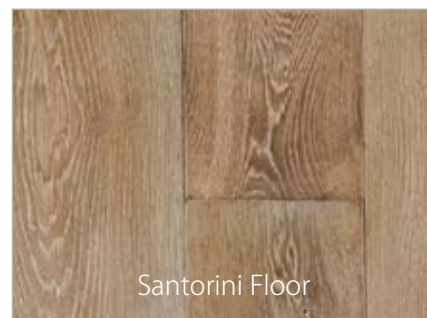

The Vulcan range is available in these three following tones:

Etna Floor

Sulfur Floor

Santorini Floor

Colour	Characteristics	Boards widths (cm)	Board lengths (cm)
		22/25/27 (approx 9/10/11 ins)	
Etna	Solid Oak thickness 24mm (0.95 inch)	x	200 to 250 (78 to 98 ins)
Sulfur	Solid Oak thickness 24mm (0.95 inch)	x	200 to 250 (78 to 98 ins)
Santorini	Solid Oak thickness 24mm (0.95 inch)	x	200 to 250 (78 to 98 ins)

The Vulcan Range floor boards are made exclusively in solid oak.

For maximum strength these thick boards are grooved on both edges and «false tongue» strips are supplied. The upper board surfaces have been particularly deeply aged and hand-finished : with an oil-based protection for Vulcan SULFUR, and wax finished for Vulcan SULFUR and Vulcan SANTORINI.

Features : tremendous character with pronounced deeply antiqued veins and surface irregularities, but remaining smooth underfoot.
