Remarkable wood floors
for remarkable interiors

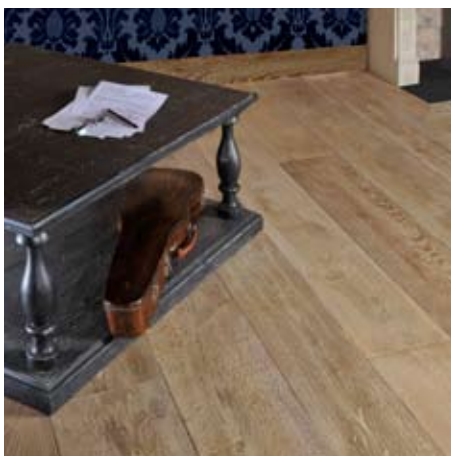

strength

Imagine this collection reclaimed from mighty **Vulcan's** workshop! Underfoot the worn distressed look is full of character and so sought after today for projects with the industrial look.

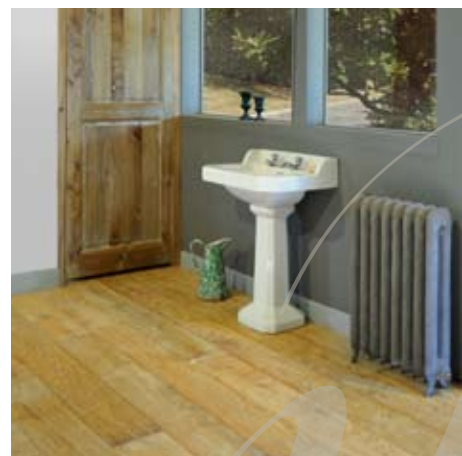

The deliberate surface hand-made imperfections give **Vulcan's** collection a warm and powerful look.

Etna

Vesuvius

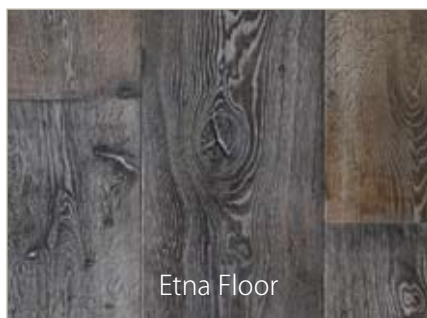

Santorini

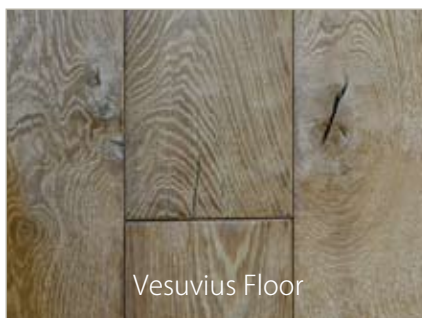

with temperament

vulcan range

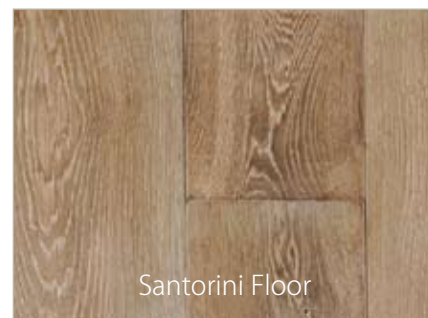

The Vulcan range is available as standard in the four following tones:

Etna Floor

Vesuvius Floor

Santorini Floor

Tone	Characteristics	Boards widths (cm)		Board lengths (cm)
		16/19/22 (approx 6/7.5/9 ins)	22/25/27 (approx 9/10/11 ins)	
Etna	Solid Oak thickness 20mm (0.8 inch)	x	x	215 à 260 (84 to 102 ins)
Vesuvius	Solid Oak thickness 20mm (0.8 inch)	x	x	215 à 260 (84 to 102 ins)
Santorini	Solid Oak thickness 20mm (0.8 inch)	x	x	215 à 260 (84 to 102 ins)

The Vulcan Range floor boards are made exclusively in solid oak.

The boards are tongued & grooved on the edges, and have been particularly deeply aged, and finished with an oil-based protection.

Features : tremendous character with pronounced deeply antiqued vein, and surface irregularities. Possibility to make the boards at 25mm (1 inch) thick in widths up to 29cm (over 11 inches).
